WE STAND BEHIND THE SAFETY YOU RELY ON

SAFETY

At Western Highways Traffic Truck Products, ***your safety is the foundation of our culture.*** Every truck-mounted attenuator (TMA) and safety solution we provide is designed and developed in close partnership with our customers. The feedback we receive drives our innovation, shaping critical safety enhancements—from high-visibility designs to robust impact-absorbing technology—that have been protecting lives on highways for over three decades.

QUALITY

At Western Highways Traffic Safety, ***quality is born from our drive to question and innovate.*** We relentlessly evaluate our products and processes, raising the bar on excellence. Through dedicated research and development, we ensure our truck-mounted attenuators (TMAs) and safety solutions protect the crews working on our highways' front lines.

INNOVATION

We thrive on collaboration and innovation. Our teams work together across every stage—from concept to deployment—to create cutting-edge features for our truck-mounted attenuators (TMAs) and safety solutions. This dedication ensures we continuously enhance highway worker safety with every product we deliver.

GET YOUR TRUCK NOW!

VALUE ADDED SERVICES

Rentals

Access TMAs and safety equipment through our nationwide rental network. For rental partners, we offer marketing support to optimize fleet utilization.

Timely Results

Fast delivery and support to keep your operations running smoothly.

Loaner Program

Keep your projects on track with our loaner TMAs if your equipment is out of service, ensuring uninterrupted highway safety.

Parts Store

Order TMA replacement components online with quick shipping from our dedicated parts warehouse.

Certified Safety Standards

As a trusted provider, WHTS ensures all TMAs meet rigorous safety and compliance standards, giving you peace of mind with every deployment.

Help Center

Access 24/7 online resources, including guides, manuals, and videos.

FINANCING SOLUTIONS FOR A SAFER FLEET

FINANCE

Partner with top finance companies for terms from 12 to 84 months, tailored for all buyers, including start-ups

PAY ON DELIVERY

Secure custom or reconditioned TMAs with a deposit and pay the balance upon delivery. Net terms available for qualified customers.

RENT

Get preferred rates through our national rental network, with options to purchase at the end of long-term rentals.

LEASE

Flexible leases with 30% to 100% of rental value credited toward purchase.

TRUCK REPURPOSING & CUSTOM BODIES

TRUCK REPURPOSING

Leading TMA Repurposing

Western Highways Traffic Safety is the only provider in our industry to offer complete TMA truck repurposing as a standard service. We lead North America in repairing, reconditioning, and selling refurbished TMA and safety trucks. Our skilled team can transform your used truck into a new TMA configuration or a multi-purpose safety vehicle, maximizing fleet utilization.

#1

in sales volume of refurbished
TMA trucks in West Coast

30+

years of experience
in reconditioning
and repurposing

98%

of our used trucks
transformed from
different truck types

CUSTOM BODIES

Custom TMA Bodies

For over 30 years, Western Highways Traffic Safety has crafted custom TMA bodies and upfits tailored to your specifications. Our skilled in-house teams design bodies, buckets, racks, and advanced tech to meet your unique needs, enhancing safety, optimizing fleet utilization, and improving efficiency.

BENEFITS

Collaborative Process

We incorporate your input to ensure the build aligns with your operational requirements.

Compliance Ensured

Every TMA meets your state's DOT regulations for seamless deployment.

Unlimited Capabilities

Our design and engineering expertise maximizes safety and fleet performance.
